

PALLET COVER

The pallet covers have a number of advantages: durable, lightweight and easy to use.

Having an extensive use , mainly for air transports, can also be used to protect the pallets put into the containers, when they contain temperature sensitive goods.

DIMENSIONS AVAILABLE

120X110X165

120X110X185

COMPOSITION

- Sturdy polyethylene bubble film – thickness 150 micron
- Bubble diameter 10 mm
- Bubble height 4 mm
- Thickness of the product 4 mm minimum
- The outer surface is covered by a metalized film – thickness 12 micron
